

## Oligo Software Price List

MBI offers a 30 days money back guarantee (full refund minus the S&H price). When the full software is purchased in 2008 it automatically qualifies for a free upgrade to version 7.

We provide two kind of packages, standard and the "ON LINE only". The "ON LINE only" version is the software that you download from Internet, so that a hard copy of the Manual and the CD are not shipped to you. Subtract \$50 from each item price and don't pay any shipping & handling fees. When ordering such a version with your own PO form you must specify that you're requesting the "ON LINE only" version, otherwise the standard version would be shipped out. After receiving the "ON LINE only" order we will contact you by e-mail with instructions, so your PO form must include the final user e-mail address.

The following Table lists the standard items that require a shipping fee.
